Output Power	5W
Battery capacity	Built-in Lithium battery (5200mah)
Rechargeable	By Adapter or Solar Panel
Charging Time	4H-6H (approx.)
Working Time	3H-8H(approx. depending on the speed settings)
Fan Speed	3 Speeds

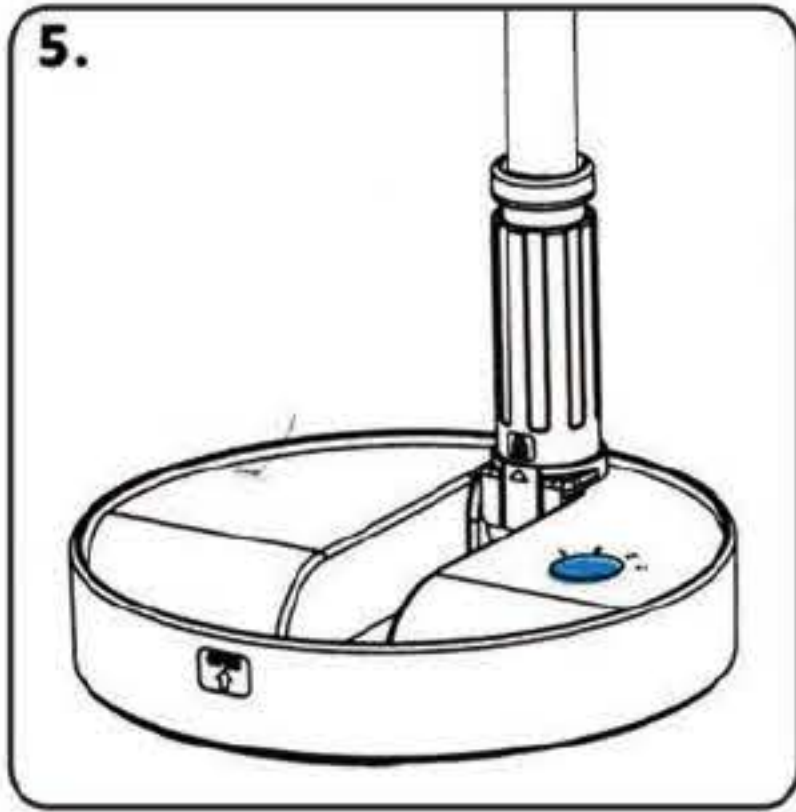

Product operation steps:

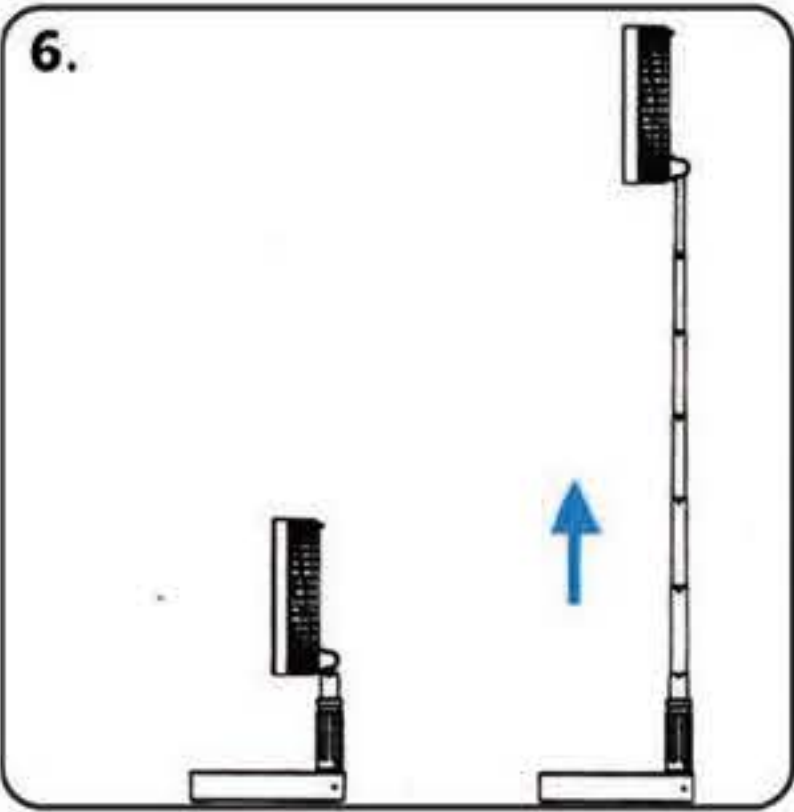

In folded state, pull upwards at the "OPEN" position to turn on the fan

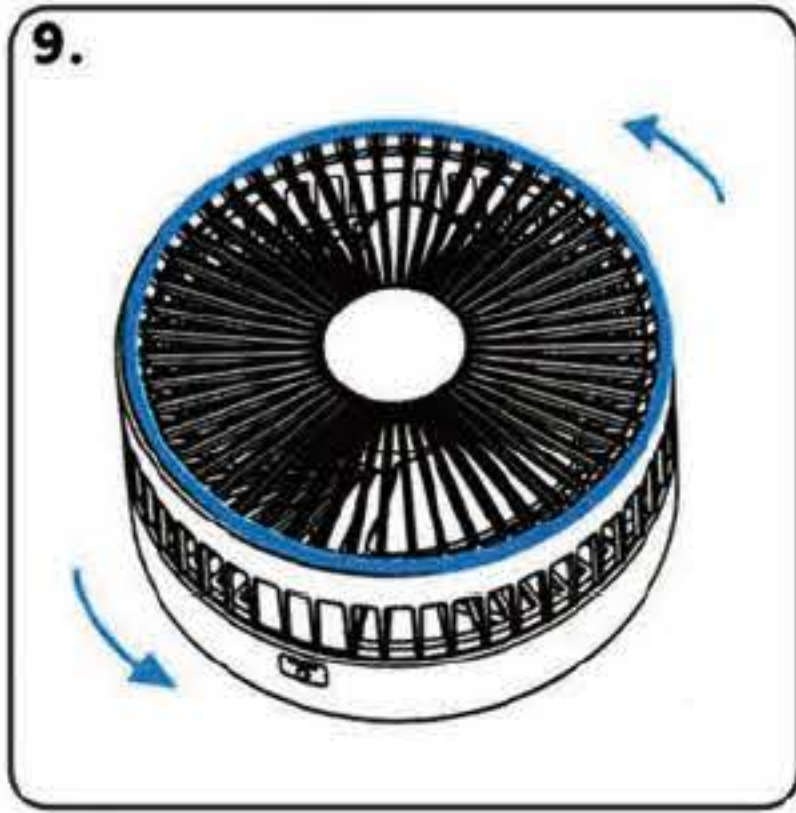

Turn on the fan in the direction of the arrow

Single-click the switch to display the power level, double-click the switch to turn on the fan, and long-press for 2 seconds at level 4 to shut down

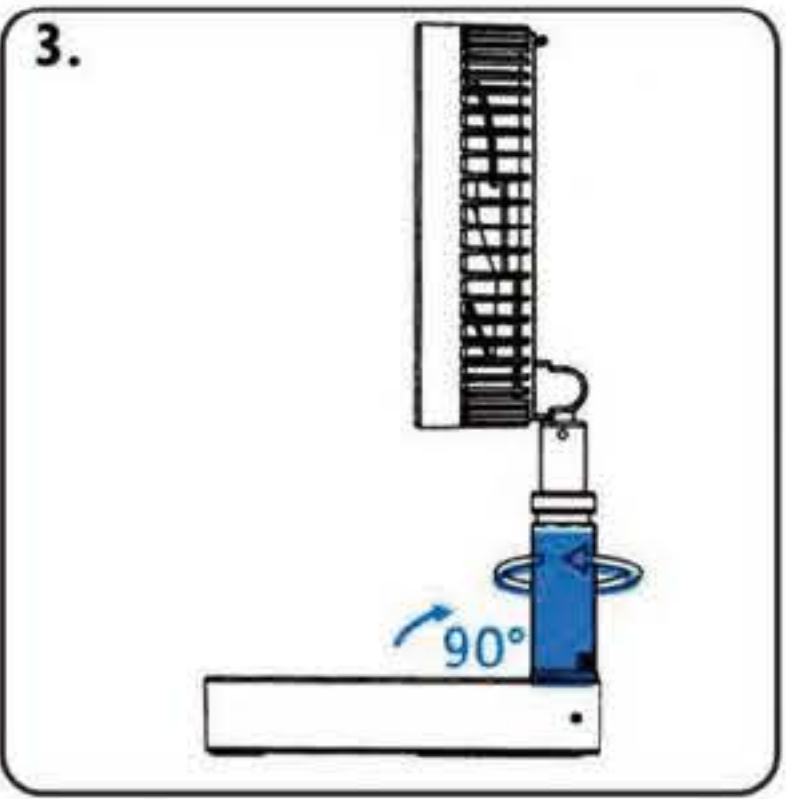

The fan can be adjusted in height. When using the pull rod, please pull it gently.

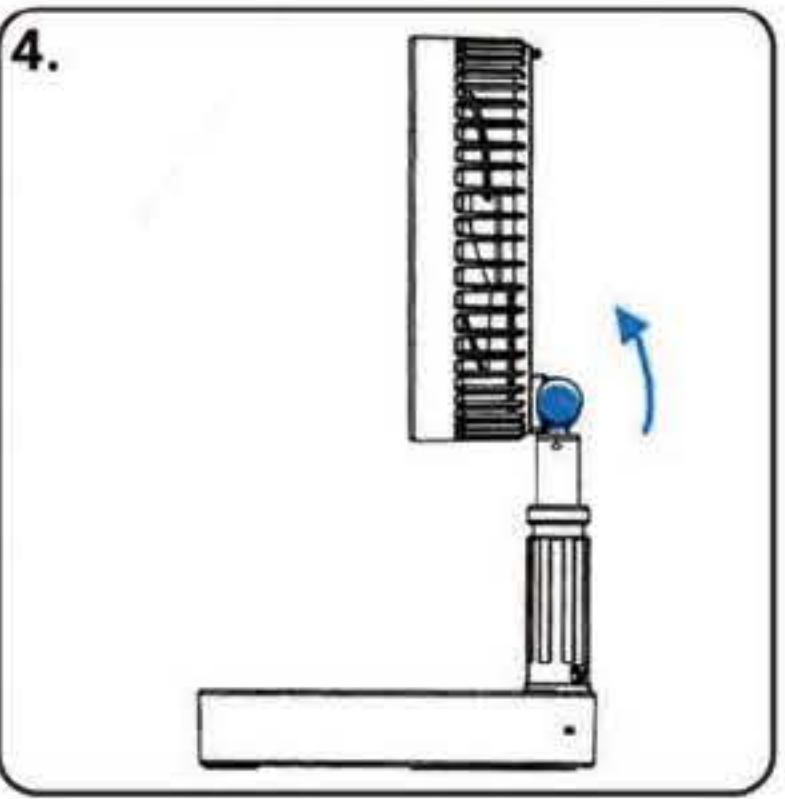

Press the fan cover frame with both hands and turn it counterclockwise to the left to open it

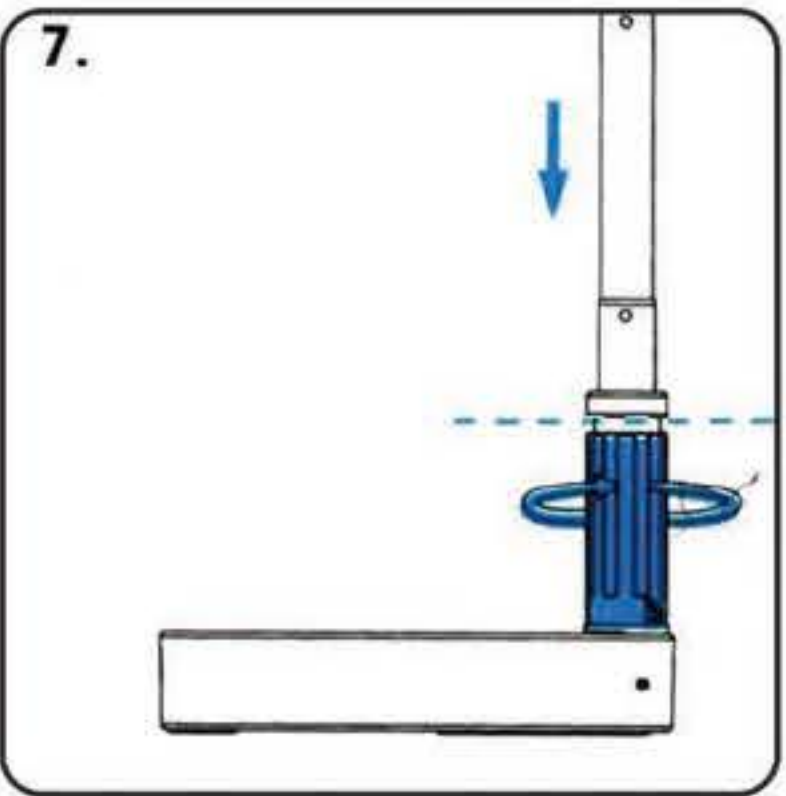

The mask can be removed to clean the dust. The body can be wiped with a dry cloth, and water washing is strictly prohibited

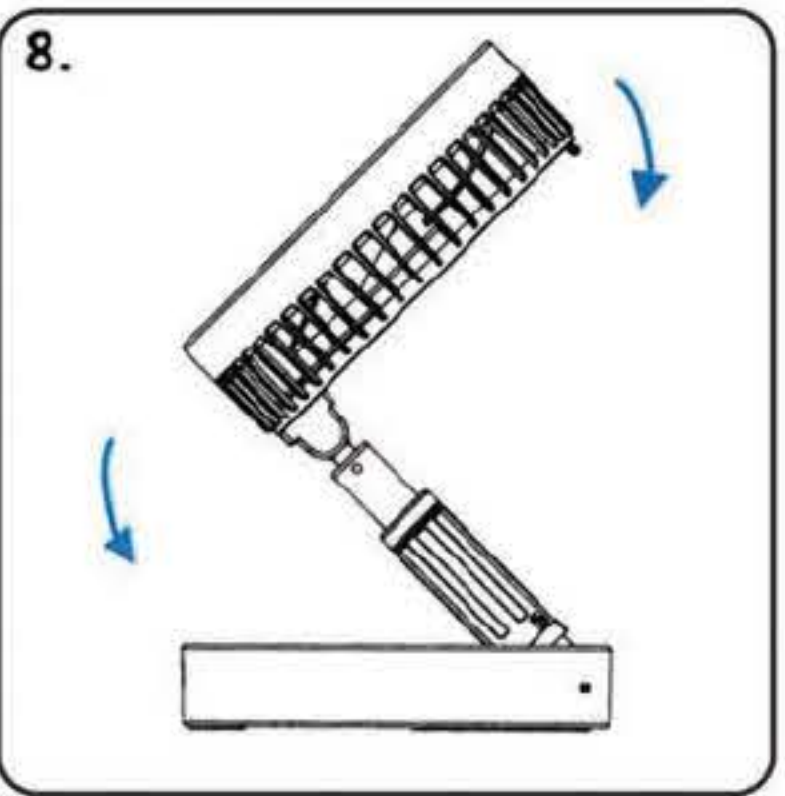

After turning on the fan, adjust the angle to 90° vertically and then tighten the handle clockwise to fix the angle

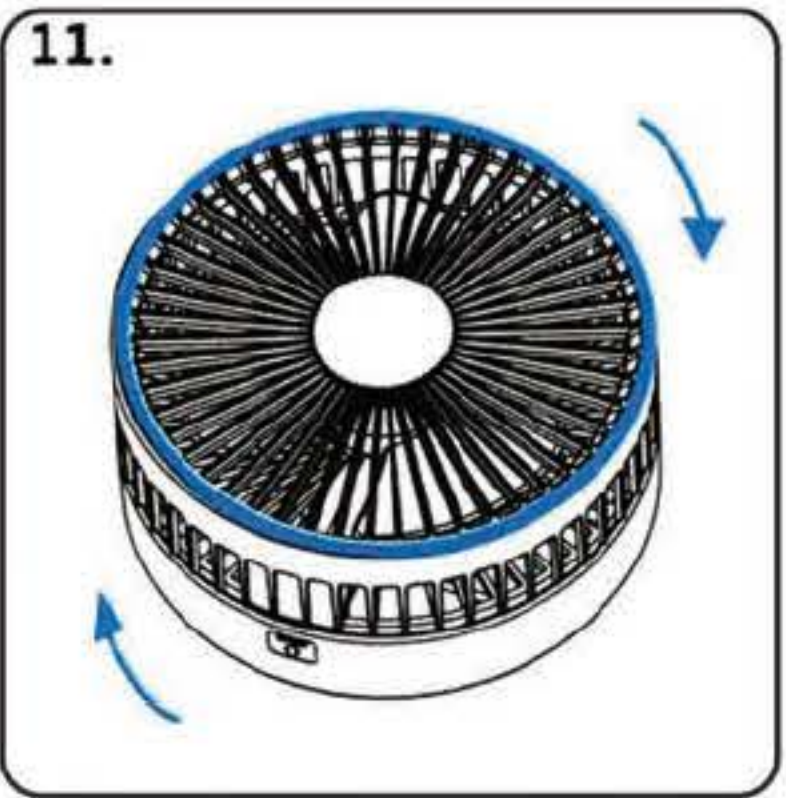

The fan can adjust the wind direction 180° up and down

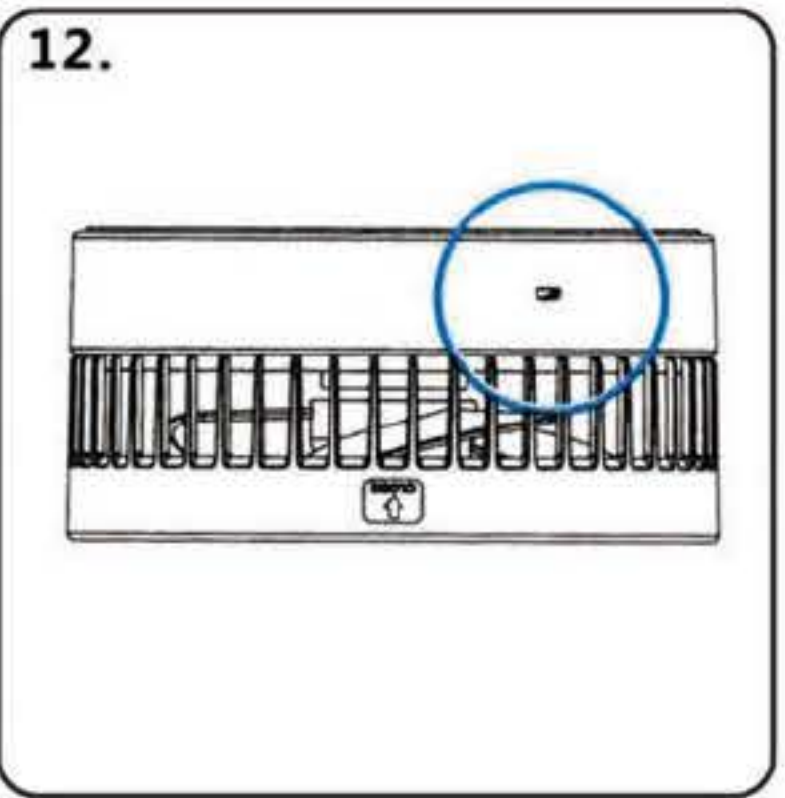

Store ①, please turn the handle device counterclockwise to loosen it.

Store ②, release the handle device. After the tube is retracted into place, fold the fan

After the mask is left to dry, align the buckle and put it back in clockwise

Type_c charging port, the green light stays on when fully charged
